TILLMAN SERIOUSLY ILL

Senator's Left Side is Paralyzed; Had Cerebral Hemorrhage.

Benjamin R. Tillman, the veteran Democratic senator from South Carolina and chairman of the naval affairs committee, is seriously ill at his home in Washington and recovery is regarded by his physician as doubtful. His left side is completely paralyzied and has been suffering from a severe recurrent cerebral hemorrhage since Thursday.

The seriousness of Senator Tillman's condition became known yesterday when his physician issued this bulletin:

"Senator Tillman is now suffering from a severe recurrent cerebral hemorrhage. There is complete paralysis of the left side. The attack came on Thursday afternoon at the Senate and has been progressive. Because of the previous attacks and the age of the Senator, the prognosis is unfavorable."

Senator Tillman was stricken with the hemorrhage—the second he has suffered—at the Senate last Thursday. His condition since has become worse and he was unconscious almost all of yesterday. Members of the family have been summoned to the bedside and some already have arrived.

About ten years ago Senator Tillman had a similar attack which paralyzed his right side, but he recovered to a great extent. The latest attack completely paralyzed his left side, and with advanced years and less physical resistance, the outcome was said last night to be extremely doubtful.

Would Save Torpedoed Ships.

C. Stewart Henslee of Chattanooga, Tenn., has invented a device and offered it to the Navy Department to save torpedoed ships by instant application of a plate to the hole caused by the entrance of a shell. The device, which has been demonstrated before a number of government officials and Representatives, consists of a number of cone-shaped buckets of rubberized canvas attached by a chain. At the end of a series of these buckets is a closing disc of steel plates. When the hull of a vessel is pierced the crew lowers the chain of cones, which are drawn by suction of the water into the hole and pull after them the closing disc, which is brought up against the hole and remains in place by pressure of the water outside.

RECOMMENDS SEA FOOD

Governor Davis Insists on the Consumption of Fish, Crabs, Oysters and Other Salt Water Products.

The following proclamation has been issued by Virginia executive:

Whereas the world's available supply of meat is inadequate for the war needs of the United States and our allies, except through strict economy in domestic consumption of beef, mutton and pork; and

Whereas fish and other sea foods should be substituted for meat, in order that our armies overseas and our allies can obtain an adequate supply of protein food; and

Whereas the supply of sea food easily obtainable from the Chesapeake Bay and along our sea coast, is more than sufficient to feed the entire population of Virginia for years to come; now

Therefore, I, Westmoreland Davis, Governor of Virginia, do call upon the people of Virginia to help win the war by substituting fish, crabs, oysters, clams and other sea foods from Tidewater Virginia, in season, for beef, mutton and pork, which are the meats most easily transported and the food most urgently needed by our allies. I ask that every patriotic family eat at least one sea food meal a day, and I urge the transportation companies and every citizen to help as far as possible to build up the great undeveloped fishers industries of Virginia, in order that the world's supply of food can thereby be increased and maintained and the fighters on the firing line and the war workers can be properly fed.

Given under my hand, and under the Lesser Seal of the Commonwealth, at Richmond, this twenty-seventh day of June, in the year of our Lord one thousand nine hundred and eight an in the one hundred forty-second year of the Comonwealh.

Westmoreland Davis,
Governor.

MAKE BRILLIANT CHARGE

French Capture Important Ridge. General Pershing on German Territory.

Paris, July 1.—A brilliant charge along a front of nearly two miles won for the French Saturday night the strategically important ridge between Mosloy and Passy-en-Valois, in the Ourcq Valley, the Poilus penetrating the German positions to a depth of half a mile and holding their gains. The attack netted them 265 prisoners.

Fifteen German airplanes and two observation balloons were brought down by the Frrench Saturday. At the same time French bombing machines dropped nearly fifteen tons of explosives on German points of communication and other targets. To the southwest of Soissons French fliers, dropping five tons of bombs, scattered German troop organizations massing for a counter attack. Lieut. Fonck, the French "ace," brought down his forty-ninth enemy machine.

With the American Army in France, July 1.—Alsatian villagers gave General Pershing a warm and enthusiastic greeting when the American commander-in-chief unexpectedly paid a visit to the American troops in Alsace a few days ago. This was the first time General Pershing set foot upon soil claimed by Germany.

Civilians lined the streets outside American headquarters when they learned he was there, and they remained patiently waiting while he held a lengthly conference. When he emerged from the building they tipped their hats, waived their handkerchiefs, and shouted "Vive l'Amerique!" Similar demonstrations were held at many points as the general's car was whirled along the winding mountaing roads.

Graham, father of the young woman. Graham, a railroad conductor, surrendered after the shooting, and, accordng to the police, clamed that he was forced to kill Temple in self-defense.

The shooting occurred at the home where the young woman boarded while attending a college here as a music student. She was standing within a short distance of the men, and one of her fingers was sattered by a stray bullet.

The Artcraft photoplay "Hit-the-Trail Holliday" will be seen in picture form with George M. Cohan as the star at the Richmond Theater tonight.

In this unusual picture, Billy Holliday is the replica of Billy Sunday, the famous Evangelist, he being a widely advertised bartender, whose characteristics have won him enviable celebrity. He plays the bartending game on the square, and refusing to supply liquor to some minors at the behest of his employer, he finds himself out of a job and drifts into a little country town seeking employment. How he makes good and won out is told in this interesting picture.

ALEXANDRIANS IN FRANCE

Intelligence has been received in this city announcing the safe arrival in France of the One Hundred and Sixteenth Regiment which embraces most of our soldiers who left here last fall for Camp M'Clellan, Anniston, Ala., as members of the Alexandria Light Infantry. Our boys passed through Alexandria about two weeks ago. The train reached here during the night and anxious relatives and friends gathered at the Union Station at that time and waited throughout most of the night in order to get glimpses of dear ones who volunteered to fight for their country. It was known that they were being taken to an Atlantic port whence they would soon embark for the field of war.

The dear ones they left behind have spent anxious days and nights as they have read of submarine work on this side of the globe, and have prayed as they never had before that Heaven would safeguard the young Alexandrians. Their prayers have been answered, and today these patriots are mingling with French, British, Portuguese and other soldiers, ready to do their part in the great struggle for Liberty, not only to preserve American free institutions, but that democratic principles be maintained throughout the civilized world.

Old Alexandria has always responded to the country's call. At times some have raised the issue as to whether or not our soldiers should be sent outside the country to fight. In 1846, waiving this question, Alexandrians went into Mexico and fought for their country, and in 1898, when the United States was forced into a war with Spain, young Alexandrians walked through the streets of their native city with the national emblem on the lapels of their coats under which were the words "Will go anywhere." While the Alexandria company was not ordered out of the country during that short-lived conflict, young men of our city who were in other places at the time enlisted and served in Cuba. The same spirit animates the American soldier of today—he, too, is ready to go anywhere.

May the God of Justice and Right defend our boys. He has blessed them in the outgoing: May He preserve them upon the field of battle and return them safe to their dear ones at home.

UNNECESARY NOISES

Among the cases before the Police Court this morning was that of a man operating several auto trucks who was charged with opening mufflers on his machines while they were standing on North Alfred street. The complainant is a resident of that thoroughfare and he alleged that the anti-noise ordinance recently passed by the City Council is violated, especially at night, to the annoyance of other people who reside on North Alfred street. He also said he had several times made complaint to the defendant.

The accused said he had ordered certain appliances for his trucks which would correct the nuisance complained of, but had not received the same. The court assumed that every man reported for violating the ordinance would urge some excuse, and imposed a fine of $5 upon the defendant.

The authorities during the present abnormal conditions in Alexandria have not been enforcing all the laws of the city according to the letter, as were they to do so it would be necessary to impose fines upon all persons who allow vehicles to stand upon the streets during the night. Many complaints are received of the practice of those who repair automobiles in the street during the night. The machines are placed in front of residences where loud talk and often language unconventional is indulged in. While such work may be necessary and it would doubtless be urged that such procedures are due to emergencies, it should be apparent to all interested that unnecessary noise or boisterous talk should be avoided when people are endeavoring to sleep

COMING FOURTH OF JULY

On Thursday next the people of this country will celebrate Independence Day. It is hoped that it will be observed decently and in order—that is, that there will be no unnecessary waste of powder on this occasion and that accidents will not occur. On last Saturday night the younger generation in Alexandria began the celebration of the Fourth of exploiding loud-sounding torpedoes and other Fourth of July adjuncts. Some of their elders soon took it up, and loud reports, some on King street, were heard.

The police have for years had standing orders from the Mayor to enforce the law forbidding the sale or use of explosives within the city limits. They have notified dealers that the law providing a fine of $5 will be imposed should they be cited to appear in the Police Court. The officers will also be on the lookout for those who cause explosions in the streets.

Powder is too precious a commodity to be wasted in foolish firecrackers and blank cartridges. All of it should be saved for that enemy who would eliminate Liberty, that blessed heritage of Americans.

Year after year orders have been issued which have been more honored in the breach than in the quiet observance. Let us have the decorous quiet of this Cradle of Liberty unbroken by any unseemly sounds this Fourth of July.

The Eagle may scream in the appointed places and times, but let the great majority of the citizens be content to be well-behaved onlookers and auditors, and the town will be the better and its inhabitants the happier for it.

THEODORE ROOSEVELT

It is an interesting circumstance that, of all the exceptionally strong personalities of the country, only one has failed to give that support to the government and the nation which the government and the nation have the right to expect of any citizen, high or low, in a war like this.

Theodore Roosevelt is the only deliberate insurgent in the whole group of towering figures in America today. A few obstructionists like La Follette and Vardaman remain, it is true, but they draw very little water in the present situation. They are voted down as often as they venture into the open, and they have very little popular sentiment behind them—a very small following to deliver one way or another.

Colonel Roosevelt is in a totally different class. He has been twice President of the United States, and his refusal to lend his influence to the administration in carrying out its great war program is a matter of more or less serious import.

He is opposed to the President's manner of conducting the war and he is devoting himself in season and out to bitter and biting criticisms of every move which the government makes, which does not square absolutely with his notion of what should be done.

Because President Wilson refused to place the lives of 30,000 or 40,000 American boys in his hands, or for some other reason not known to the country at large, he became the relentless critic of the whole administration.

MUST SIGN PLEDGES

Beginning today representatives of households of twenty-five or less when they go to their grocer for sugar must sign the sugar pledge, copies of which the grocer will have, stating that not more than three pounds of sugar will be used in a month by any one person in the household. The signer also agrees not to hoard sugar, nor to have more than twenty-five pounds on hand at any one time for canning purposes. These pledges will be retained by the grocer or dealer, and will be checked up from time to time by agents of the Food Administration. No sugar certificates are required of householders or boarding-house keepers in whose dwellings less than twenty-five people are fed, but they must sign pledges at the grocery stores.

MOVE ON IDLERS

"Work or fight" is the order that became effective today throughout the country and local draft boards are ready to carry it out to the letter.

The boards are given a wide latitude and, with the exception of a few specific rulings given them by the War Department, have large discretion in the individual cases and will rule on the various excuses which may be offered on the part of derelicts.

Idlers, of course, are given short shrift, and will be inducted into the service wherever found, regardless of their place of registration.

SCANDAL MONGER

After God had finished making the rattle snake, the toad and the vampire, He had some awful substance left, with which He made a scandal monger. A scandal monger is a two-legged animal with a cork screw soul, a water-sogged brain and a combination backbone made of jelly and glue. Where other men have their hearts he carries a tumor of decayed principals. When the scandal monger comes downthe street honest men turn their backs, the angels weep tears in heaven, and the devil shuts the gates of hell to keep him out.—Anon.

There was one train of 518 men from Pittsburgh.

If facilities permitted, the Virginia Military Institute could probably enroll for next session 1,200 to 1,500 cadets. The outside limit is about 600 that can possibly be accommodated. That number was reached six weeks ago.. General E. W. Nichols, superintendent, said last week that the correspondence continues to be very heavy from parents who are eager to have their sons enter at the next session.

A dispatch from Danville says Miss Mary Windsor and Raymond Barbour were killed instantly and Miss Nellie Bolen and Jeff Burton died early Saturday in a Greensboro, N. C., hospital as a result of an automobile accident Saturday morning between Reidsville and Greensboro. Replying to the criticism of the special grand jury of the Hustings Court directed at him for his management of the police department Mayor George Ainslie, of Richmond, has issued a statement in which he declared that the city charter placed him only over the chief of police, and that he was not generally in charge of the department. He called attention to the changed conditions in Richmond as a result of the massing of soldiers near here, and resented the charge that this city is degenerate with vice, gambling and bootlegging.

Charged with interfering with Plainclothesmen M. F. Lumpkin and M. R. Brown in the discharge of their duty, W. R. Newman, watchman of the Main Street Station, in Richmond, was Saturday placed under arrest, carried to the First police station and there bailed for his appearance in police court. The arrest of Newman resulted after Police Lumpkin and Brown, in search of five trunks of liquor reported to be in the baggage room of the station, had been ejected by Newman. The five trunks of whisky were later seized and taken to the First station.

W. W. Thompson, aged twenty-four years, son of a farmer of Dinwiddie county, residing a short distance from McKenliey, was found dead with a bullet wound in his left breast near the heart and a recently purchased pistol lying on the bed near his side in a room at the Central Lodging House, on Sycamore street, Petersburg Saturday forenoon. He was a member of the Fourth Company, First Battalion, Infantry Replacement, Camp Lee, and was forwarded to Camp Lee by the local exemption board three or four weeks ago. The deceased left a letter addressed to the captain of his company, in which it is thought he explained his reason for taking his life.

TWO PAY PENALTY BY SUICIDE

Japanese Gatemen Whose Negligence Causes Accident, End Their Lives

Tokyo, July 1.—Expiating their negligence in a manner which shows that the old samurai spirit still reigns in Japan, two railroad gate tenders at a grade crossing near Tokyo committed suicide when they learned that through their carelessness a Japanese traveler had been run over and killed by a train. The victim of the accident was a Japanese banker, who was crossing the tracks in a jinrikisha when a freight train bore down and crushed him.

The two watchmen were asleep. When they realized what had happened they notified the authorities, and then threw themselves on the track before the next train. Several leading officials attended the funeral of the gatemen and the obsequies were marked with much ceremony.

Your Winter's Coal Supply

On account of rulings of the U. S. Fuel Administration, it seems doubtful if Virginia will receive sufficient anthracite coal to supply the demands. If present rulings are maintained, this shortage will be very great in Alexandria and we earnestly advise our customers to put in a reasonable amount of bituminous coal as a safeguard against a coal shortage next winter.

We are now securing some very fine bituminous coal which we believe will work in all characters of coal burners but the Latrobe stoves.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side...

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC-139

TIME IS THE TEST.

The Testimony of Alexandria People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Alexandria people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from Kidney ills is looking for.

Mrs. G. W. Davis, 107 Prince St., Alexandria, says: "Doctors treated me for along while and pronounced my case of kidney trouble a severe one. Often I felt so listless and nervous, I almost gave up hope. Doan's Kidney Pills brought me relief after everything failed. Doan's strengthened my kidneys and removed the trouble."

THREE YEARS LATER Mrs. Davis added: "I still take Doan's Kidney Pills occasionally when my kidneys don't act as they should. I always get quick relief."

Price 60c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Davis had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Better Cooking by Electricity

Women have long known that electric cooking is cleaner, that it banishes all the dust and ashes of coal and wood and soot and fumes of gas. They have known that it makes the kitchen cooler; the air purer; that is the most convenient way to cook. Now they have the word of the women who stand for the most scientific cooking methods known, that electric cooking produces better results than any other means.

Let us demonstrate the various sizes of ranges and refer you to the satisfied electric range users.

NEWS OF THE DAY.

Complimenting him for his honesty and giving him two dollars in cash, Mrs. Mary Ebert, of Shasta county, Cal., recently rewarded D. Davis, of Marysville, for returning her purse containing $3,000 and valuable jewelry.

Crushed under his automobile which overturned after colliding with a stone fence, near Sharpsburg, Md., Percy Kerlin received injuries Saturday night which resulted in his death a few hours later. Leonard Himes, a Camp Meade soldier, accompanying Kerlin, was badly injured.

In a masterful drive supported by the most violent of artillery fire, the Italians swept the Austrians forward Saturday in a charge that regained for the allies the whole of Monte Valbella. Eight hundred prisoners were taken, together with cannon, trench mortars and machine guns.

Base prices for wheat are advanced by the government 6 to 12 cents beginning July 1. The advances are to equalize the advance in freight rates recently announced by the Railroad Administration. They are to protect the producer against the tendency to deduct the rail increases from his base price as previously fixed by the presidential proclamation of February 21.

Much speculation as to whether a murder had been committed was aroused yesterday by the finding of the skeleton of a young woman buried in the beach in front of the Oriental Yacht Club at Mamaroneck, N. Y. Coroner John Sella and Dr. John Hunter expressed belief that the body had been buried in the sand some five or six years ago. An examination of the skull gave the ground for the belief that the woman might have been murdered.

S. J. Konenkamp, president of the Commercial Telegraphers' Union of America, yesterday in Chicago issued a general order to all subordinate units calling a strike against the Western Union Telegraph Company on July 8, at 7 o'clock in the morning. The action of the union follows months of negotiations through the National War Labor Board whose decision granting the telegraphers the right to organize was rejected by the Western Union.

Vicksburg, Miss.—"I am for Germany and I am awaiting the day—and it won't be more than two or three years at most—when Germany invades the United States. Germany will make a real country out of this slipshod, grafting nation." This statement, accredited to M. Wilkerson, caused him to be taken from a passenger train and treated to a coat of tar and feathers. He was then committed to jail.

Amid great excitement, the Hungarian premier, Herr Wekerle, admitted in the Hungarian parliament that the Austro-Hungarian losses in killed and wounded during the recent offensive amounted to 100,000 and that 12,000 were lost as prisoners. Fifty thousand Italian prisoners were taken, he added. He asserted that the withdrawal of the Austro-Hungarian forces across the Piave was undertaken to 'spare the lives of our soldiers."

The failure of Berlin to express its displeasure over the recent "we-cannot-win-by-arms" speech of Foreign Minister von Kuehlmann will be used by allied statesmen as a further argument in favor of the immediate establishment of an interallied diplomatic board to direct in unity the political offensive of the nations leagued in the defense of democracy. In official circles in Washington, the belief is held that Kaiser Wilhelm will not displace Von Kuehlmann, inasmuch as a "peace by negotiation" drive is undoubtedly favored by the kaiser.

Potato candy is the latest war-time offering in sweets, the Food Administration announces. It comes in the form of bonbons, which look like chocolate, taste like cocoanut, and have a delicate brittleness about them. When munched slowly, says the announcement, an agreeable flavor is apparent. Potato candy, it is added, is in logical line with a tapioca-flour bread, whole steak, porpoise fillets, mesquite sirup, cotton seed flour muffins, canned shark meat, and other interesting food revelations brought about as a result of the war.

EXCORIATES GERMANY

Swiss Paper Rebuked by Government For Its Bitterness.

The Gazette of Lausanne, Switzerland, has again been warned by the Swiss Federal Chancellery in connection with its savage criticism of the Germans incorporated in its review of former Ambassador Gerard's book, "My Four Years in Germany." The newspaper has ben notified that another article of the sort, characterized as threatening to compromise Swiss relations with Germany, will be more severely punished. The warning cities the following passages in the introduction to the review as objectionable:

"One sees in the author the memoirs of an absolutely honest man required to live four years among knaves and other malefactors.

"But Germany has always violated divine right and human laws. Its lies, its inexcusable savageries and the relentlessness with which it has destroyed the most beautiful monuments of the earth and with which it has burned precious libraries and museums have dishonored it forever. The world must destroy it or the world is lost."

The Gazette received a similar warning on June 7, 1915. The Journal, of Lausanne, reproduces the warning without comment.

DEBS ARRESTED IN OHIO

Socialist Leader Charged With Violating Espionage Act.

Cleveland, July 1.—Eugene V. Debs, four times Socialist candidate for the Presidency of the United States, was arrested here yesterday by United States Marshal Charles W. Lapp and Deputy Marshal Boehme as he was about to deliver a Socialist address. The arrest was made on a Federal warrant in connection with Debs' speech at the Socialist State convention in Canton, Ohio, June 16 last, and followed an indictment returned Saturday by the Federal grand jury. It is understood the indictment contains ten specific counts under section 3 of the espionage act as amended by the passage of the sedition bill on May 16 last, which provides a penalty of twenty years in the penitentiary and a fine of $10,000 and costs for each violation.

Mr. Debs will be arraigned in Federal court today before Judge D. C. Westenhaver when the matter of bail will be decided. He spent last night in the Cuyahoga county jail in the custody of Marshal Lapp.

Mr. Debs refused to make any statement regarding his arrest.

Don't have to look far. Use what Alexandria people recommend. Every street in Alexandria has its cases.

Here's one Alexandria man's experience.

Wiliam H. Beach, 417 South Lee street tell it. "My back pained me so badly I could hardly get about. The kidney secretions passed too frequently and I had to get up often during the night. I felt so sore and stiff in the morning I could hardly get out of bed. I was tired and languid and had no ambition. I finally got a box of Doan's Kidney Pills at W. F. Creighton & Son's Drug Store and the first few doses gave me great relief. I used about four boxes of Doan's and they put my kidneys in good condition. My back never aches now and I feel fine in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr Beach had. Foser-Milburn Co., Mfgrs., Buffalo, N. Y.

KEPT HER AWAKE.

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night . . . I took different medicines, but nothing did me any good or relieved me until I took Cardui . . .

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again . . . I decided I would try Cardui . . . By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133
